

AETV-CG

SUBJECT: Enclosure 18 (Individual Soldier Training Initiatives) to V Corps Command Training Guidance for FY 04-05

1. The Combined Arms Training Center (CATC) is the proponent within Central Region for all individual soldier training, excluding Non-Commissioned Officer Education System courses and unit internal training. V Corps units schedule soldiers for positions within the CATC schools through the Army Training Resource Requirements System (ATRRS). V Corps Schools NCO and Schools Technician manage and distribute quotas based upon V Corps Regulation 351-1, Schools Administration.

2. Commanders can affect their allocations for CATC schools through the annual TACITS survey, and the Quarterly Reallocation Report (QRR).

a. Department of the Army sends the TACITS survey through V Corps to the MSCs. This report forecasts schools 4 years out. The survey is now run on ATRRS; an email is sent to all ATRRS account holders when the new survey is available, normally during the first 2 months of the fiscal year.

b. The QRR is held to forecast changing school requirements by fiscal quarter. Units enter their requirements for at least 2 quarters out; they can submit up to 1 year out. Units submit their QRR the first week of every quarter.

3. Due to operational commitments, many units have fallen below the necessary levels of various individual training requirements. To rectify this situation, V Corps Schools NCO has coordinated for Mobile Training Teams (MTT) and Distance Learning (DL).

a. The V Corps Schools NCO has requested MTTs for UMO 151 (Unit Movement Officer/NCO), SOC 40 (Safety Officer/NCO), and HAZ 11 (Hazardous Materials Driver Certification).

b. The V Corps Schools NCO has also requested DL classes for HAZ 11 (Hazardous Materials Driver Certification), LOG 73 (Unit Level Supply), LOG 75 (Leaders Standard Army Management Information System (STAMIS)), and LOG 215 (Maintenance Leaders).

4. The NATO school system offers classes including sniper training, NBC training, and vehicle identification. An inquirer from NATO is sent during the second quarter of every calendar year for courses taught the following calendar year. NATO courses are NATO funded. However, when these courses are not identified by MSC commanders as being required, the courses are not funded, and often cancelled.

5. Department of the Army has changed the BNCOC Automated Reservation System (BARS) to better support the GWOT and Unit Focused Stabilization (UFS). Soldiers are now scheduled for BNCOC based upon their UIC's status (excludes units stabilized or deployed), and then the DA BARS list fills the remaining open seats.

6. V Corps point of contact is SFC Marinoff at 370-4910.
